i.franke@wevosys.com>
Hello Ms. Taousiani,
Thanks for this information. It was what I need for a decision about cooperation.

Your multimedia biofeedback system is an interesting idea and comes very close a real working speech therapist. There are four levels speech recognition and synthesis and video recognition and synthesis (playback). Because of the variability of languages, your program needs an adaption for each language.
A rough calculation shows me, that this project needs at least 500.000 Euro for a basic version with just some main European languages. On the other side we have to see possible customers: speech and language therapists. This group has a small income.

I recommend that you look for some university partners and look also for financial aid from the EU.

Best regards

Ingolf Franke

Ultimate Project Management Certification Super Bundle

Project Management Professional (PMP)

For experienced project managers looking to solidify your skills, maximize earning potential and to show employers you are the right choice, the PMP certification is the right path for you.

- PMP for project managers is the most sought after industry-recognized certification. The PMP certification is recognized globally. It demonstrates your abilities, experience, education and of course competency to lead and direct projects.

  PMI offers a comprehensive certification program for practitioners with different levels of education and experience. Project Management Professional (PMP)® certification for experienced Project Managers.
  The PMP® certification scheme is accredited by the American National Standards Institute (ANSI) against the International Organization for Standardization (ISO) 17024.
  Prerequisites For PMP® Certification
  OR

  Four-year degree , 4,500 hours leading and directing projects, 35 hours of project management education. I hold the online account to do it in the future.

Six Sigma Black Belt

Six Sigma is a data-driven improvement philosophy that views all activities within an organization as processes whose inputs can be controlled to effect significant improvements in process outputs. Six Sigma uses a rigorous and systematic methodology known as DMAIC (define, measure, analyze, improve, and control) and a number of qualitative and quantitative tools for driving process, product, and service improvements aimed at reducing defects and variation. Companies across various industries are striving to become faster and more responsive to customers, achieve near perfect quality, and operate using world-class cost structures.

- Six Sigma is a data-driven improvement philosophy that views all activities within an organization as processes whose inputs can be controlled to effect significant improvements in process outputs. Six Sigma uses a rigorous and systematic methodology known as DMAIC (define, measure, analyze, improve, and control) and a number of qualitative and quantitative tools for driving process, product, and service improvements aimed at reducing defects and variation. Companies across various industries are striving to become faster and more responsive to customers, achieve near perfect quality, and operate using world-class cost structures. This course will prepare you for Evaluating, Analyzing, Applying and creating fundamentals.

  Six Sigma is a brand recognized the world over, and will help organizations in any country. Achieving certification as a Lean Six Sigma Black Belt can be of enormous benefit to your career. The knowledge, skills and prestige that come with this level of training can help you move into the ranks of upper management within your current company and make you a much more attractive candidate to prospective employers. I hold the online account to do it in the future.

PRINCE2 Practitioner

The PRINCE2® Practitioner examination is the second of two examination courses that you are required to pass in order to become a registered PRINCE2® Practitioner. Successful completion of this course will indicate that the candidate is able to act as a sufficiently informed member of a Project Management team that uses the PRINCE2® methodology. Having already gained the basic understanding of the PRINCE2® method and terminology in the Foundation course, the PRINCE2® Practitioner course aims at providing a deeper insight into the methodology. The Practitioner course will detail the relationships between the Processes, Themes and Principles of PRINCE2® and the reasons behind them. The PRINCE2® Practitioner course will prepare the candidate to be able to apply the method in an appropriate manner within a given set of circumstances and begin to work on projects. With the demand for PRINCE2® continuously increasing, there is no better time to gain a valuable PRINCE2® certification and enhance your employability.

- The PRINCE2® Practitioner examination is the second of two examination courses that you are required to pass in order to become a registered PRINCE2® Practitioner. Successful completion of this course will indicate that the candidate is able to act as a sufficiently informed member of a Project Management team that uses the PRINCE2® . I hold the online account to do it in the future.

PRINCE2 Foundation

The PRINCE2® Foundation course is the first of two examination courses that you are required to pass in order to become a registered PRINCE2® Practitioner. This makes it the ideal starting point for anyone who is interested in a rewarding career in Project Management. The Foundation certification is internationally recognised and covers the basic methodology and terminology of PRINCE2®. Completing the Foundation course will ensure the ability to demonstrate an understanding of the PRINCE2® Principles, Themes, Processes and Tailoring. It will also teach the various techniques and roles that are required during a PRINCE2® Project. Completion of the PRINCE2® Foundation course, and passing the certification examination, will result in being sufficiently prepared to work within a PRINCE2® environment and as a part of a PRINCE2® Project Management team. Successfully passing the PRINCE2® Foundation examination is also a prerequisite for writing the PRINCE2® Practitioner exam which will lead to becoming a Registered PRINCE2® Practitioner.

- The PRINCE2® Foundation course is the first of two examination courses that you are required to pass in order to become a registered PRINCE2® Practitioner. This makes it the ideal starting point for anyone who is interested in a rewarding career in Project Management. The Foundation certification is internationally recognised and covers the basic methodology and terminology of PRINCE2®. READ MORE I hold the online account to do it in the future.

ITIL) - Service Operation

Information Technology Infrastructure Library .

Service Operation focuses on delivery and control process activities and aims for a steady state of managing services. In this course, you will learn the principles, processes, common activities, and implementation considerations of ITIL® service operation.

- This entry level courses offers you a general awareness of the key elements, concepts and terminology used in the **ITIL**® service lifecycle, including the links between lifecycle stages, the processes used and their contribution to service management practices. Service Operation focuses on delivery and control process activities and aims for a steady state of managing services. In this course, you will learn the principles, processes, common activities, and implementation considerations of ITIL® service operation.   The course will cover Operation Principles and Operation Process as well as Service Operation activities. The course will cover management level concepts and core information of the activities and techniques with in service operations. I hold the online account to do it in the future.

Certified Associate In Project Management (PMI-CAPM)

PMI's Certified Associate in Project Management (CAPM) is a valuable entry-level certification for project practitioners. Designed for those with little or no project experience, the CAPM demonstrates your understanding of the fundamental knowledge, terminology, and processes of effective project management.

- Certified Associate in Project Management (CAPM) is a valuable entry-level certification for project practitioners. Designed for those with little or no project experience, the CAPM demonstrates your understanding of the fundamental knowledge, terminology and processes of effective project management. CompTIA Project+ PK0-003

CompTIA's Project+ is a globally recognized project management certification that provides validation of fundamental project management skills. The Project+ courseware follows the CompTIA objectives, ensuring you receive the training and knowledge needed to succeed.

-

The Project+ Certification confirms a project manager's knowledge of the entire project life cycle, from initiation and planning through execution, acceptance, support and closure. The CompTIA Project+ Course measures the necessary competencies for all project managers, particularly in the IT industry.Students will learn the knowledge and skills necessary to complete projects on time and within budget, and and learn a common project management terminology used throughout the industry. This course also includes curriculm for the PMP Certification.

The CompTIA Project+ certification validates the communication and business skills you need to lead projects with confidence, complete projects on time and make sure you stay within budget.

- Project+ answers essential business requirements
- Project+ opens new career opportunities
- Project+ can be your path to higher earnings

I hold the online account to do it in the future.

Information Technology Infrastructure Library (ITIL) - Foundation

The ITIL Foundations Training Package includes expert instructor-led training modules with customized presentations and learning supplements for an all-inclusive training program that provides the benefits of classroom training at your own pace.

-

The ITIL Foundations Training Package includes expert instructor-led training modules with customized presentations and learning supplements for an all-inclusive training program that provides the benefits of classroom training at your own pace.

The ITIL (the IT Infrastructure Library) Foundations certification training course successfully prepares students for the ITIL Foundations exams by teaching the core fundamentals of ITIL practices: service management as a practice, the service lifecycle, key principles and models, selected roles, processes and functions, technology and architecture and the ITIL Qualification scheme.

The ITIL Certification is administered by the IT Infrastructure Library. It is the most widely accepted approach to IT service management in the world.   ITIL provides a cohesive set of best practices in information technology, drawn from the public and private sectors internationally. It is supported by a comprehensive qualifications scheme, accredited training organizations, and implementation and assessment tools. Candidates for this course are typically IT professionals, business managers, project managers and business owners.

This certification training course maps directly to the exam objectives and offers numerous features such as exam tips, case studies, and practice exams. We are so certain this training class will provide you with the knowledge and skills you need to succeed, we guarantee you will pass your exam! I hold the online account to do it in the future.

Six Sigma Green Belt

A process is a means of creating and delivering products and services needed by customers. According to Takashi Osada, Japanese author and quality pioneer, "if the process is right, the results will take care of themselves." By Six Sigma standards, a "right process" is one that creates and delivers precisely what the customer needs. By this logic, no Six Sigma effort can start without having a high-level picture of an organization's customers and other stakeholders, their needs, and the business processes meant to fulfill those needs. A thorough analysis of the existing business processes – and the products and services they churn out – is the first step in Six Sigma projects. You need to listen to the "voice of the customer" to find out what customers need, identify opportunities for change and improvement, and translate customer needs into goals and customer deliverables. In this course, learners will examine how to analyse process components and stakeholders in an organization. They will also learn about concepts and tools for collecting and analyzing customer information and feedback.

CONFIDENTIAL, NON-DISCLOSURE AGREEMENT
This AGREEMENT made the 19th BETWEEN vaia taousiani and systems of windows limited day April 2001

SYSTEMS FOR WINDOWS LIMITED ('SFW') whose registered office is situated at Cavendish House, 40 Goldsworth Road, Woking, Surrey, GU21 1JT ('SFW') and Vaia Tausiani whose address is 3 Kosma Aitolou 33, Fleming ,Thessalonika, 54642, Greece.
-.

WHEREAS

SFW wishes to explore the possibility of entering into subsequent business relations with Vaia Tausiani pursuant to which Vaia Tausiani would provide Confidential jnformation, labelled as such.
Vaia Tausiani seeks to protect the Confidential Information disclosure to SFW during the course of any dealings between Vaia Tausiani and SFW.

1. In consideration of the disclosure of the Confidential Information by Vaia Tausiani to SFW, SFW agrees:-
1.1 That it will limit disclosure of the Confidential Information to its
employees, professional advisors and associated companies and in accordance with any obligations arising from statue regulation or order of the court;
1.2 That it will use the Confidential Information only for the purpose of deciding whether to enter into any subsequent agreement with Vaia Tausiani;
1.3 That it will notify Vaia Tausiani promptly upon learning of any unauthorised disclosure or misuse of the confidential information and will co-operate with in any legal proceedings instituted by Vaia Tausiani provided that the cost of doing so is met by Vaia Tausiani;
1.4 That the confidential information and all copies thereof will be returned to Vaia Tausiani or certified destroyed if a decision is made not to enter into any subsequent agreement with Vaia

Tausiani and that in any event the Confidential Information will be returned forthwith or destroyed at the request of Vaia Tausiani;

1.5 That it will indemnify and hold harmless Vaia Tausiani and its officers, directors, employees and agents against any direct loss (including but not limited to legal costs) sustained by Vaia Tausiani in connection with any breach of this agreement by SFW;

Ref: SO/PH/2000.2NAIATOO1.DOC

2. This agreement contains the entire agreement of the parties in relation to the Confidential Information and may not be modified except by written agreement between the parties.
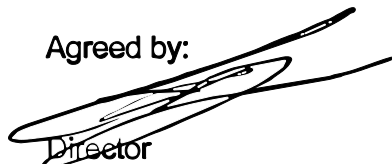

3. In the event that any provision in this agreement shall be determined to be unenforceable by the court by reason of it extending for too great a period of time or over too large a geographical area or over too great a range of activities, it will be interpreted to extend only for the maximum amount of time, geographical area or range of activities as to which may be enforceable. Any invalid, illegal or unenforceable provisions of this agreement shall be severed and after any such severance all other provisions hereof shall remain in full force and effect

4. SFW's obligations under this Agreement shall survive the completion of its evaluation of the Confidential Information.

5. This agreement shall inure to the benefit of the successors and assigns of Vaia Tausiani and shall be binding upon SFW's successors and assigns, administrators and representatives.

6. This agreement shall be governed by and construed and enforced in accordance with the Laws of England and Wales and any dispute arising out of this agreement will be tried before the cour:ts of England and Wales.

ПРЕПОРЪКА

от доц. д-р Ивайло Петров -

ръководител на сектор

"Педагогика на деца с нервносоматични заболявания",

член на Дружеството по невронауки

Вая Григориус Таусиани е завършила специалност "Логопедия" в катедра "Специална педагогика" при Факултета за начална и предучилищна педагогика в СУ "Св. Климент Охридски".

Втората й специалност е "Педагогика на деца с нервносоматични заболявания". Преподавал съм й по дисциплините "Медицинска психология", "Теория и история на соматопедията", "Деонтология", "Психология на деца с нервносоматични заболявания", "Ергономия". Като моя студентка, Вая Таусиани прояви задълбочен интерес към дисциплините от областта на специалната педагогика, а на изпитите се представи отлично. Тя притежава значителен потенциал за научно-изследователска работа. Считам, че може успешно да продължи образованието си в най-реномираните образователни институции в света.

Препоръчител: /доц. Ивайло Петров/

Recommendation
from associate professor d-r Vania Matanova
chairman of the department Special Pedagogic
at Sofia University "St. Clement Ohridski"

I am acquainted with Vaia Grigorios Taousiani since her student years. As a student in Logoped she showed strong scientific interests. I teach Vaia Grigorios Taousiani the following disciplines:

General speech pathology, Patho-psychology, Specific educational difficulties and Neuro-psychology. The student demonstrates strong and deep scientific interest in the speech and language pathology. This interest is materialized in preparing of course dissertations and papers, which she successfully presents before her course-mates.

Vaia Grigorios Taousiani is sociable and with manifested sense of responsibility and declared intention for gaining the new knowledge in the speech and language pathology. She possesses skills for analysis of scientific literature and empiric data, which gives me a reason to considerate,

 that she will develop herself as excellent specialist in the field of the Speech Science.

Chairman of the department: (signature)
associate professor d-r Vania Matanova

Sofia 12.01.1999

Recommendation
from associate professor d-r Ivailo Petrov
Head of the department
"Pedagogic for children with neuro-somatic diseases"
member for the Association for neuro-sciences

Vaia Grigorius Taousiani has finished the specialty "Logopedy" in the department of "Special pedagogic" at the Faculty for Initial and Pre-school Pedagogic in Sofia University "St. Climent Ochridski".

Her second specialty is Pedagogic for children with neuro-somatic diseases. I was her professor in the lessons of Medical psychology, Theory and history of the somatopedy, Deontology, Psychology of children with neuro-somatic diseases, Ergonomy. As my student, Vaia Taousiani shows a deep interest to the disciplines in the field of special pedagogic, and she took her exams excellently. She has considerable potential for scientific and investigation work. I think that she can successfully continue her education in the most celebrated educational institutions in the world.

Recommendation
for Vaia Grigorios Taousiani
from main assistant Antoaneta Georgieva

chairman of the department Speech Science
in the department of Special pedagogy
at Sofia University "St. Climent Ohridski"

I am acquainted with Vaia Grigorios Taousiani as her professor in the disciplines "Communicative disturbances in structural diseases" and "Communicative disturbances in neurologic diseases in childhood" in the bachelor's program of the speech therapy specialty. The student was always showing deep and strong interests in the problems of the speech and language pathology and therapy, systematic preparation and active participation in the seminars. During the clinic practice V. Taousiani became known with her expressed motivation for work with patients, excellent skills for analysis and orientation in the therapeutic procedures, with searching optimal therapeutic strategies, techniques and procedures. In her student's years in the bachelor's program, V. Taousiani demonstrated interest also in the scientific investigation of the problems of the communicative disturbances. Her papers show good orientation and skills for analysis and conducting a scientific investigation and also for discovering regularities in the observed phenomena.

I am sure, that the professional skills and personal qualities, shown by Vaia Taousiani during her studying, give her the possibility to continue her education in the specialties in any university and are enough reason for me to recommend her before her future professors.

STATEMENT OF STUDY PLAN/RESEARCH PROPOSAL

First Name: Vaia   Family Name: TAOUSIANI

Course Applied for: Master's Diploma Course (Mst)

Proposed date of entry: October 2000

_____
_____helped by a Ph.D specialist in linguistics Trinity college and his encouragement to study in Oxford University.

After four years studies in University of sofia st kliment oxridsy Bulgaria obtaining several degrees in human communication science in the field of speech therapy, I realised that Bulgaria is not in a possition to offer exteneted research facilities in the field, while my ambition is to implement a new approach to speech therapy (articulation) based on the Aristotelian mathematical principles. My basic interest is to find more information in phonology and how the human system works itself. My wish is to follow courses in general linguistics , specializing in experimental phonology. The depth of general linguistics and comparative philology program (ii) for the M/phil program corresponds more closely to my needs. In particular the emphasis of program two on phonetics and phonology would be concentration of value to me. You may find more information in the introduction of my software "logos a new aproach to speech therapy using commonly available computer technology". I also realised that the Bulgarian language is geographically limited and that only english offers a worldwide audience becoming familiar which, I am applying for the course as the first step toward the realisation of my goals. As part of my M/Phil I sould like to present a thesis with title "mathematical approach to classification of meaning". I sould like to pursue an M/Phil degree in linguistics as a preliminary to the futher of investigation of the phonological disorders,
