It has 50 recent papers of 2015-2016 for Psychology written in a non-Psychological terminology. My main idea is to help people know more about Mental Health, even if they don't have academic background of Psychology. I call my writing style as “Psychologized”.

- "Fantashire" , 2017 , Published by Arnaoutis , Greek Language

Its a sci-fi book, that it is also proposed to be movie in amazon studios. Furthermore, I created a scenario in Greek language based on book, so this December I will participate in Greek Prospective Scenario Awards of Greek television, ERT1 . I created the name of the book from words "Fantasy" and "shire". I started writing this book when I was in Leeds, Yorkshire, 2013.
