RESUME OBJECTIVES

From a very young age I have been interested in writing and directing plays. I organized the theatrical team of my school for 3 consecutive years and directed 5 plays. At the same time, I have repeatedly taken part as a second actor in the national TV, radio series and commercials. My greatest aspiration is to direct plays both for theatre as well as cinema and excel at it. My interest and professional goal is to write scripts for theatre, cinema and television, having the general responsibility for costumes, sets, music, editing and directing.
